

## Certificate of Compliance

## **ADB® HEAVY DUTY® WELD MOUNT HOIST RINGS**

ADB®'s QUALITY SYSTEM IS REGISTERED TO ISO 9001-2015

The material used in our ADB® Heavy Duty® Weld Mount Hoist Ring components is AISI 4140 or equivalent and conforms to ASTM A322 & ASTM A108.

## **CHEMICAL ANALYSIS**

Carbon	.38/.43	Silicon	.15/.35
Manganese	.75/1.00	Chromium	.80/1.10
Phosphorus	.035/Max	Molybdenum	.15/.25
Sulfur	.040/Max		

ADB® Heavy Duty® Weld Mount Hoist Rings are designed with a design factor of five times the rated capacity based in any lifting direction. However, the user is reminded that it should not be used to lift loads that exceed the rated capacity.

If any component or components of the hoist ring is replaced with a non-ADB® component, this certification is void.

ADB® Heavy Duty® Weld Mount Hoist Rings are designed to exceed the following military specifications and ASME standards:

MIL-STD-1365 General design criteria for handling equipment associated

with weapons systems.

MIL-STD-209 Slinging and tie down provisions for lifting and tying down

military equipment.

ASME B30.26 Safety Standards for cableways, cranes, derricks, hoists, hooks,

Jacks and slings.

- The surface finish of ADB® Heavy Duty® Weld Mount Hoist Rings is black oxide coated.
- ADB® Heavy Duty® Weld Mount Hoist Rings are not exposed to any equipment or material known or suspected of having mercury or polychlorinated biphenyls (PCB's).
- ADB® Heavy Duty® Weld Mount Hoist Rings components are NDT inspected per ADB®'s Internal procedures in accordance with ASTM E1444 or ASTM E1417 (NAVSEA testing available upon request).
- ADB® Heavy Duty® Weld Mount Hoist Rings are heat treated to 36-48 RC.
- ADB® Heavy Duty® Weld Mount Hoist Rings critical, load bearing components are hardness tested for material, and heat treat verification.
- Screws are produced from 170,000 PSI minimum tensile strength material. ADB® alloy inch screws conform to the requirements of ASTM A574-Standard Specification of Alloy Steel Socket Head Cap Screws.
